WHOLESALE TRADE LIST

FOREST NURSERY COMPANY

Growers and Collectors of

FOREST AND SHADE TREES AND ORNAMENTAL SHRUBS

Rt. 2, McMinnville, Tennessee

Season of 1916-17

TERMS OF SALE

CASH or satisfactory reference, with sufficient time to investigate before shipment, is invariably required of parties unknown to us. To responsible, prompt paying parties, we will extend usual time for payment.

SHIPMENTS—When ordering, please state plainly whether freight or express shipment is desired, and give route if by freight. In the absence of this information we will use our best judgment without assuming any responsibility as to delivery. Goods are at purchaser's risk and cost after delivering to the forwarding company.

GUARANTEE—We are very careful to keep each variety true to name as labeled, and are ready at any time to replace, on proper proof, any that may prove otherwise, free of charge, or refund the amount paid, but it is mutually agreed between the purchaser and ourselves that we shall at no time be liable for an amount larger than the original purchase price.

Seeds—5 pounds at 10 pound rates; 25 pounds at 100 pound rates.

No charge for bags, boxes or barrels for seeds.

Trees and Shrubs—500 at 1,000 rate, 5,000 at 10,000 rate.

Boxing and baling at cost.

SHRUBS

Amorpha Fruticosa, Common False Indigo. A tall native shrub of very easy cultivation, blooming freely in June. The violets spikes are crowded in terminals. Of rapid growth.... 6 to 12 in. 15 40 \$3 00 \$25 00
 1 to 2 ft. 20 50 4 00 35 00
 2 to 3 ft. 30 80 6 00 50 00
 3 to 4 ft. 40 1 25 10 00

ALTHEA, or Rose of Sharon.

These are grand flowering shrubs. There is a wide range of color, and not a day from the middle of July until September—a time when so few other shrubs are in bloom—that Altheas are not aglow with flowers. They have no insect enemies, grow well anywhere, are splendidly suited for shrubbery borders, for colony plantings and hedges. The planter who uses them freely makes no mistake.

	Doz.	100	1 M	10 M
Althea Rosea, mixed, 6 to 12 in., seedling.. . . .	20	30	\$ 1 25	\$ 10 00

“ “ “ 1 to 2 ft.	30	60	5 00	40 00

Most collected seedlings, such as Maples and some others, except large size, are crooked near ground and should be cut back to crown before transplanting. They grow up straight, smooth and much faster and quicker than when planted without cutting back. We cut back all seedlings to crown before transplanting.

Osmunda Bogalis royal fern
Polystachya Acrostichoides, Christmas evergreen
